AICL/ICLA

Executive Council

Report from the Structures Committee 2016–2017

Three members wished to leave the committee in autumn 2016: its long-time chair Jean-Marc Moura, Meng Hua, and Paola Mildonian. They were replaced with Anders Pettersson, Wang Xiaolu, and Concetta Rizzo. The present composition of the committee is as follows.

Lieven D'hulst (Belgium)

Ibra Diene (Senegal)

Jonathan Hart (Canada)

Sandra Nitrini (Brazil)

Concetta Rizzo (Italy)

Wang Xiaolu (China)

Anders Pettersson (Sweden), chair

After the reorganization of the committee, its main task has been to oversee the establishment of consolidated membership lists. Using a proposal drawn up by Hans Joachim Backe, the committee has agreed with the three treasurers on a principle for collecting and coordinating membership data. The next step will be to find a person or a body willing to answer for the coordinating, storing, and making

accessible of membership data and to agree with this person or body about the exact form in which the data are to be collected. The committee has asked for outside help with this step, and Lucia Boldrini is presently trying to reach relevant agreements.

Respectfully submitted,

Anders Pettersson
